## MENTOR- MENTEE SYSTEM

Mentoring system enables constructive interaction, guidance and mentorship of the students by their teachers. The vision of the programme is "to inculcate the right attitude from the beginning". In order to resolve day to day academic problems of the students, mentors are appointed for a batch of 15-20 students, and they will counsel the respective students twice in a month, to solve the problems come across during their course of study. This is a continuous process till the end of academic career of the student.

### Functions of the cell:

- Devote time to the relationship with mentee and be available when mentee requested.
- Develop mutual trust and respect between Mentor (Teacher) and Mentee (Student).
- Help the Mentee to solve his/her own problem.
- Mentor should listen what he/she is sharing with you, rather than give directions.
- Maintain the confidentiality of the information shared by their mentee.

### Roles & Responsibilities of Mentors:

- Schedule two face-to-face meetings per month.
- Maintain a confidential progressive record of the mentee.
- To serve as a positive role model.
- To build a relationship of trust with their mentee.
- Track the academic performance of the mentee and counsel, guide and motivate them in academic and personal matters.
